RB-DOORS®

DESIGNED SECURITY DOORS

RB-DOORS® (Rav-Bariach (08) Industries Ltd) was founded in 1973 and with the development of the unique multi-bolt locking system, the strength and durability of the steel entry door and the ever-evolving designs, the world of security a doors was transformed.

Since inception, RB-DOORS® set forth to lead the door industry, establishing new standards for security, quality, visionary thinking and cutting edge technology.

The constant pursuit of innovation has led to the registration of patents and trademarks, both in Israel and internationally and an impressive record supplying **over 4 million doors** in Israel and abroad. Our commitment to innovation is also applied to technology, state of the art production lines, development of advanced lock mechanisms, creative and meticulous designs of the steel doors and more.

RB-DOORS® has specialized in the development and manufacturing of superior High Security products for the protection of property and life, making RB-DOORS® an international leader in the manufacturing and marketing of steel security doors for every need, worldwide.

RESEARCH

STANDARDS

DEVELOPMENT

RB-DOORS® Research and Development department is one of the company's most important departments, serving as a source of inspiration and a role model. Over the years since the establishment of RB-DOORS® R&D department, a large number of new products have been developed in different divisions including security entry doors, interior doors, high security doors, forced entry doors and advanced locking solutions. The developments set new standards and serve as leading models for other companies in the industry worldwide.

RB-DOORS® develops and manufactures highest quality security solution products which comply to the strict demands of Israeli Security Standards and international standards.
